
Looking for fast, reliable answers to you healthcare questions?

Go to the source Americans trust most — A Registered Nurse!

This comprehensive home reference guide addresses a wide range of health concerns **as only a nurse who knows the inside story on health care can.** From headaches to ankle sprains, asthma to zinc remedies, this authoritative resource reveals everything you need to know in order to get healthy-and stay that way. Inside you'll find hundreds of tips that doctors don't give you on easing symptoms, promoting healing, following a treatment plan, and solving both the big and small problems that arise when you or a loved one is sick, hurt, or in pain.

Registered nurse Pat Carroll has brought the **engaging, humorous, easy-to-understand approach** to teaching she's known for to the pages of her first consumer book -- a home health guide that belongs on the kitchen counter next to the phone book for **easy reference** in the home. Nurses will appreciate that Pat does not refer readers to their doctor, but rather, their health care provider.

The book has five sections: Treating Symptoms, Treating & Preventing Injuries, Choosing and Using Medicines Wisely, You and the Healthcare System, & Medical Tests & Same-Day Surgery. Within each section, the reader will find Nurse's Notes, Nurse's Wisdom, and boxes summarizing nursing research.

Pat says, "I wanted this book to be one that my nursing colleagues would be proud to own and recommend to their friends and family *– one that celebrated nursing and exemplified our commitment to our patients by focusing on the human response to illness. I hope they will say with pride, 'Ask me about What Nurses Know!'"*
